Alarm

Fire and Intruder Alarm Integration

Integrate fire alarms, intruder alarms, BMS, SCADA, and other systems for real-time alerts and control.

Fire and intruder alarm integration, supporting all major BMS, intruder and fire alarm systems, as well as panic buttons, hard wired inputs, MOXA ioLogik devices and more.

- Customise alarm messages to be radio friendly
- Filter based on location, zone or any other data
- Send messages to Radio, Email, SMS and more
- Text to Speech for non keypad radios
