

SMC Gateway Cellular

PRD-GTC-CAT4

SMC Gateway Cellular (GTC) provides seamless integration with two-way radio systems, alarm networks, cloud platforms, and lone worker monitoring solutions.

Featuring built-in cellular, and serial connectivity, the GTC is designed for straightforward installation and rapid deployment—making it an ideal tool for efficient system integration.

Specification

- Isolated RS232/RS485 serial port
- 10/100Mbps adaptive Ethernet
- Built in LTE Cat 4 module
- 9-36V wide voltage supply
- Operating Temperature: -40°C to +85°C
- Dimensions: 94mm×70mm×33mm (L×W×H)
- Cortex A7 1.6 GHz CPU
- 256MB RAM + 8GB eMMC
